*\$116,745.84 of this increase is on real estate in lifteen of the larger cities. In the Auditor's report of 1889, the tax on real estate of the other towns was included in that of the counties in which they were located, so the increase in taxes on real estate in those towns cannot be accarately stated. It is, however, known to be large, as, for instance, in Martinaville, South Boston, and Radford, so that it is apparent that nearly the whole of this increase of \$141,735.05 tax is on real estate in the cities and lowns.

Fl.A., September 21.—At the meet of the Jacksonville Athletic and Bicycle Club the races were very well run, but the most interesting feature was the breaking of the one-mile southern record by George M. Adams, of this city, aged 18 years, who in a flying start with pace-makers, made the mile in 2:193-5. Charence Saunders, under the same conditions, made the balf mile in 1:06. These are the lowest southern records for a quarter-mile track.
